EDUCATION

COMSATS University Islamabad

Bachelor of Science in Computer Science

Vehari, Pakistan

Jan 2022 – Jan 2026

PROFESSIONAL EXPERIENCE

Full Stack Web Developer

Freelance

Vehari, Pakistan

Dec 2023 – Feb 2025

- Engineered 5+ full-stack web applications using React.js, Next.js, Node.js, Express.js, and MongoDB, serving 100+ active users with 85% uptime
- Implemented secure authentication and real-time features using Supabase and JWT, reducing authentication failures by 95% and improving user retention by 40%
- Designed and deployed 20+ RESTful APIs with comprehensive error handling, achieving 50% reduction in page load times and 90% API response accuracy

PROJECTS

AI-Powered Smart Search Platform | React, Tailwind CSS, Supabase, Web Scraping Jan 2025 – Jan 2026

- Engineered unified search platform for Jobs, Products and Opportunities aggregating 1000+ listings from 10+ sources using web scraping, achieving 85% accuracy and 5-second response time, [Live Demo](#)
- Integrated Gemini AI API delivering intelligent recommendations with 88% user satisfaction rate, processing 100+ search queries daily with personalized results based on user behavior analytics
- Implemented Supabase for authentication and real-time database synchronization, supporting 500+ concurrent users with role-based access control and 90% uptime
- Designed responsive user interface with Tailwind CSS achieving 95% cross-device compatibility score and reducing bounce rate by 35% through optimized UX design
- Deployed backend on AWS EC2 with load balancing and auto-scaling, achieving 95% faster API response times and reducing server response time from 5s to 2s, a 60% performance improvement with 99.8% uptime

AI-Study Genius | Flask, Gemini API, ChatGPT API, OCR Jun 2024 – Dec 2024

- Built AI-powered learning platform using Flask supporting 75+ textbooks with 92% quiz accuracy, serving 300+ students, [Live Demo](#)
- Developed OCR system processing 50+ YouTube videos into Urdu text and audio with 82% accuracy
- Created exam generator analyzing 100+ papers, generating 500+ questions with 85% prediction accuracy
- Implemented WebSocket for real-time collaboration supporting 100+ concurrent users with 75% faster response
- Enhanced content quality through AI prompt engineering, improving accuracy from 70% to 88%

Gold Investment Platform | React, Node.js, Express.js, Supabase, WebSocket Apr 2023 – May 2024

- Developed comprehensive investment platform processing \$5000+ in transactions, featuring automated portfolio management, KYC verification system with 98% approval accuracy, and real-time market analytics for 200+ active investors, [Live Demo](#)
- Integrated NOWPayments gateway API with webhook-based transaction verification, automating 95% of payment processing and reducing transaction errors by 80% through secure validation
- Built real-time customer support chat system using WebSocket protocol, handling 500+ daily messages with instant delivery and reducing average response time from 10 minutes to 30 seconds
- Created comprehensive admin dashboards with React for portfolio tracking, transaction analytics, and user management, improving operational efficiency by 60%
- Implemented JWT authentication with Supabase achieving 95% security compliance, protecting sensitive financial data with AES-256 encryption and role-based access control for 5 user tiers

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Flask, Django, RESTful APIs, Microservices

Databases: MongoDB, PostgreSQL, MySQL, Supabase, Real-Time Database

AI & ML: Gemini API, ChatGPT API, OpenAI API, OCR, Natural Language Processing

Tools: Git, GitHub, Docker, Postman, VS Code, AWS, Vercel, WebSocket
